This stunning 4 bedroom home features an eye catching yet functional design using masterfully curated mix of organic finishes. Natural light pours into the open floor plan through the use of modern roof planes, high ceilings, skylights, and large doors & windows. The living spaces with wall to wall glass creates the ultimate indoor outdoor experience. The illuminated steel staircase complimented with glass rails, striking wood cabinets from Spain, white natural stone walls, and manicured greenery allows a perfect harmony between exterior and interior environments. The level 5 finishes with smooth textured walls and ceilings are exquisite. Kitchen is fully equipped with stainless steel appliances, high end cabinetry, and a massive island with breakfast bar. The solid California red oak steps lead you to the spacious master suite with a large walk in closet, frameless glass showers with rain heads, and dual vanities. All of the secondary bedrooms include walk in closets and are generously sized with large picture windows overlooking the backyard and pool. This energy efficient home sits on almost a 1/2 acre lot with a fenced backyard, swimming pool, and 5,500 square feet of pavers. The location cannot be beat, just a short distance to amazing restaurants, shopping, "A" rated schools, and area attractions. This rare modern home lives up to "form follows function" and won't last long.
