**4 Beds | 3.0 Baths | 2882 Sqft**

Welcome home to this 4 bedroom 3 bath pool home! This property sits in a secluded cul-de-sac in the neighborhood Big Sky! This home will not disappoint, boasting features such as, Laminate flooring, Ceramic tile, granite counter tops, and crown molding. The incredible floor plan is open and functional which allows best use of the almost 2900sqft foot print. There are 2 separate living areas, first located off of the front entrance and second is being overlooked by the kitchen. The kitchen is centrally located within the home, creating a fantastic entertaining space. The Master is expansive, with 2 walk-in closets, french doors overlooking the pool, and an oversized bathroom. The guest bedrooms are also large and open with ample closet space. This property has one of the larger lots in the subdivision with no neighbors at the front or side! The back covered patio is more than enough space to entertain for those summer pool parties! The fully fenced in back yard is large enough for all of your family pets. Homes in Big Sky do not come up for sale often, so don't hesitate, and set up your showing today!
