Tucked away on a quiet street lined with lovely mature oaks in the highly desirable community of Heathrow sits this charming home. With vaulted ceilings in the living and family rooms soaring to meet the second floor balcony running its length, you'll find yourself charmed by the openness of this home's communal areas. The living and family rooms share a double sided fireplace that both rooms can enjoy simultaneously once the weather cools down. The large master suite sits privately by itself on the ground floor with a spacious walk-in closet and an additional under-the-stairs storage area. The other 2 bedrooms open out onto the second floor balcony which looks out over the living and family rooms. The kitchen features granite countertops and has a bar counter that connects it to the family room. You can enter the shaded and fenced in back yard from either the screened porch off the breakfast nook or the sliding glass doors in the master bedroom.
