4 Beds | 2 Baths | 1867 Sqft
367900

Start your summer in this practically new 4-bedroom home in an unbeatable location. Built less than 4 years ago, this stucco beauty includes solar panels, low-maintenance landscaping and a covered back lanai for entertaining. Inside the front door, you'll find high ceilings and archways, plus tile & LVP flooring throughout (no carpets here!). The kitchen is open to the living/dining areas and features stainless appliances, a full pantry and a large island with seating for a crowd. The isolated primary bedroom boasts a spacious ensuite with a walk-in closet, dual sinks, a W/C and a step-in shower. The guest rooms are located at the front of the floorplan and share the hallway bathroom. The home offers plenty of closet space, with extra storage options in the laundry room and attached 2-car garage. Located halfway between Orlando and Tampa, Villa Mar is a fantastic community that puts you just minutes from Legoland. You'll be close to all the shopping and dining along Hwy 27, too. The growing community offers residents a resort-style pool (just around the corner from your house!), along with a playground, dog park, clubhouse and lake views. Come take a tour before someone else does! =====
